Highly commended award winning stencil artist

HANDBOOK

“Don't think about making art, just get it done.
Let everyone else decide if it's good or bad, whether they love it or hate it.
While they are deciding, make even more art.”

Andy Warhol

WORK FLOW

OBJECTS

Mostly inspired by nature. Working only with Lithuanian wild life objects and people have managed to stay focus locally. Conveyed their natural proportions, movement, gracefulness.

CUTTING

Everything is done by hand using paper and razor blade. No mashinery is involved in whole process. Depending on complexity of the stencil, it can take up to half year to finish one piece. Working 6-18 hours everyday.

SPRAYING

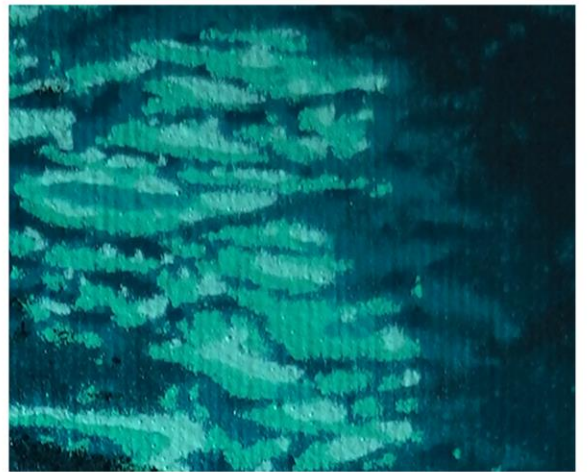

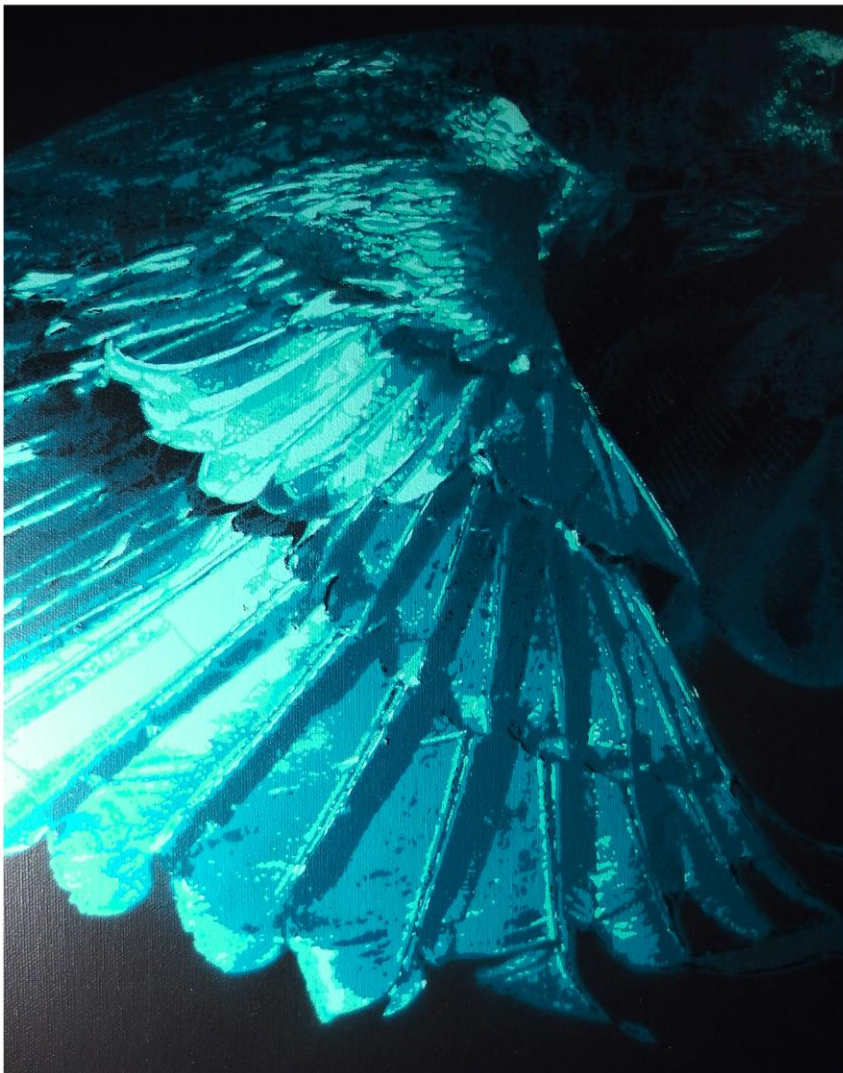

Acrylic or water based spraypaint is used. Every piece is made individually and no two same are made. Paintings are made by using separate handcut stencils, sprayed one after another. Each canvas can include up to 30 different layers, equivalent to 100.000 separate details.
